Press Release – Category Review

Ysgol Rhiwabon is currently working closely with Estyn on the recent report and fully accepts and supports the challenges that have been documented.

Newly-appointed headteacher, Mrs Melanie Ferron-Evans, a revised senior leadership team, staff and governors at the school, will ensure that the drive and commitment to maintain the improvement made in the autumn term of 2015 continues.

Headteacher Melanie Ferron-Evans said,

“There is a clear plan in place to secure improvements against the recommendations in the report. All staff in the school, supported by the governors and the local authority are fully committed to this drive for rapid improvement. We are prepared to make all necessary changes and respond positively to all challenges to ensure the best possible outcomes for our students. This is evidenced in the significant improvement in key examination areas since September which have already been secured and will be published in August this year.

The school is well supported by parents and the local community and this will also contribute to our school’s improvement.

There are many things to celebrate and to be proud of in Ysgol Rhiwabon as we continue to work hard to achieve the required level of progress against the published recommendations”.

The Estyn Report concludes that,

“In order to maintain and improve on this progress, the school should continue to sustain the level of progress it has already made, and continue to address those inspection recommendations where further progress is required.”
