

Yr.9 task for pupils who have opted for Design and Technology or Engineering to start in September

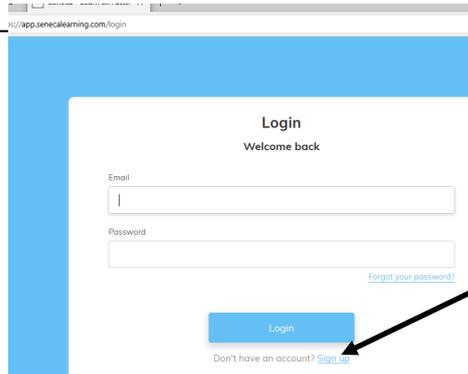

Seneca Learning Task:

This website has some excellent learning resources. It covers a lot of the theory for the D&T GCSE & Engineering exam course. The website gives short pieces of information that you read and then a set of questions to follow up. It is important that you follow the instructions The course you are following is for AQA however most of the resources are still relevant for your WJEC course you will be studying.

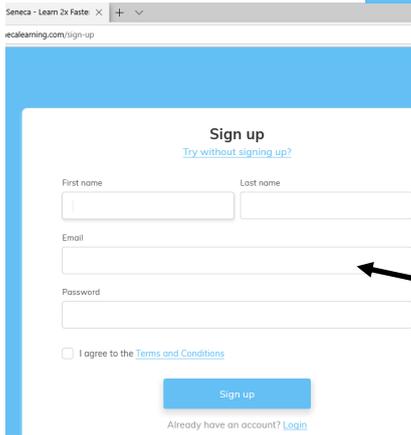

Please only go for the free version of this website and avoid going for the “premium” as we do not need to use this one.

As always if you have any questions please email me on [Robertsd518@hwbcymru.net](mailto:Robertsd518@hwbcymru.net)

Good luck.

Instructions on how to complete the Seneca Task:  
Click onto <https://app.senecalearning.com/login>  
Then click “Sign up” on the bottom of the screen

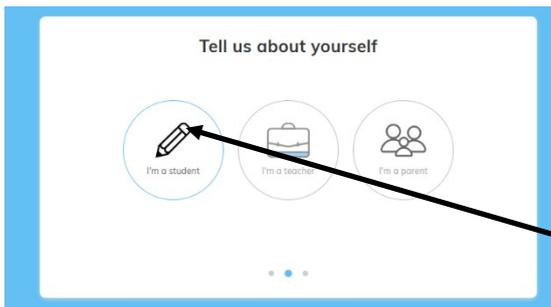

DO NOT CLICK- SIGN IN AS A GUEST

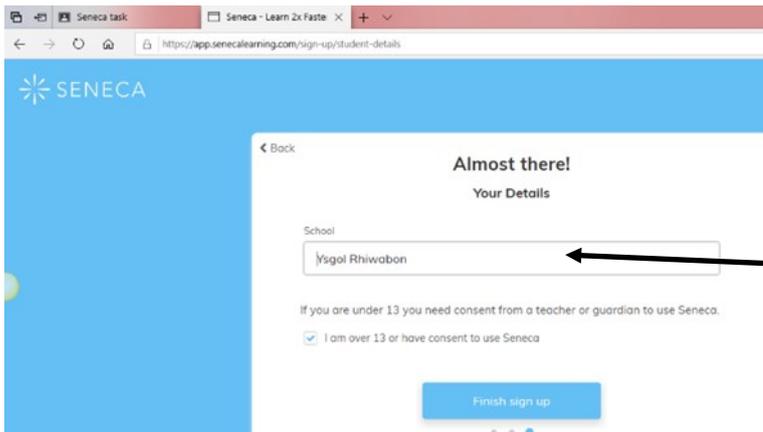

Please type in your

- Name
- Surname,
- HWB Email address if you don't have one use any email address you have
- Create a password that you can remember

Then click sign up

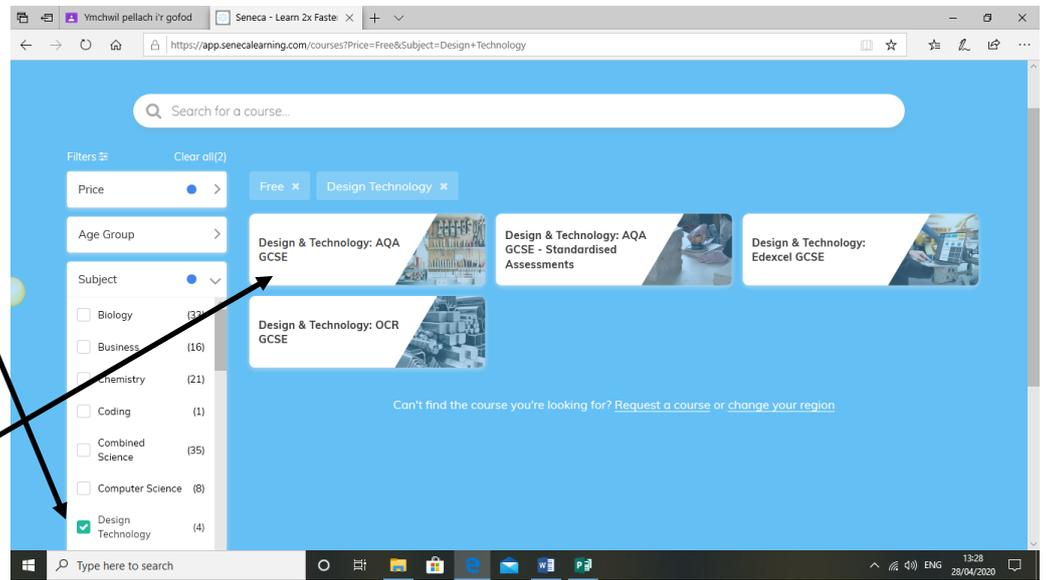

On the next screen click  
I'm a student

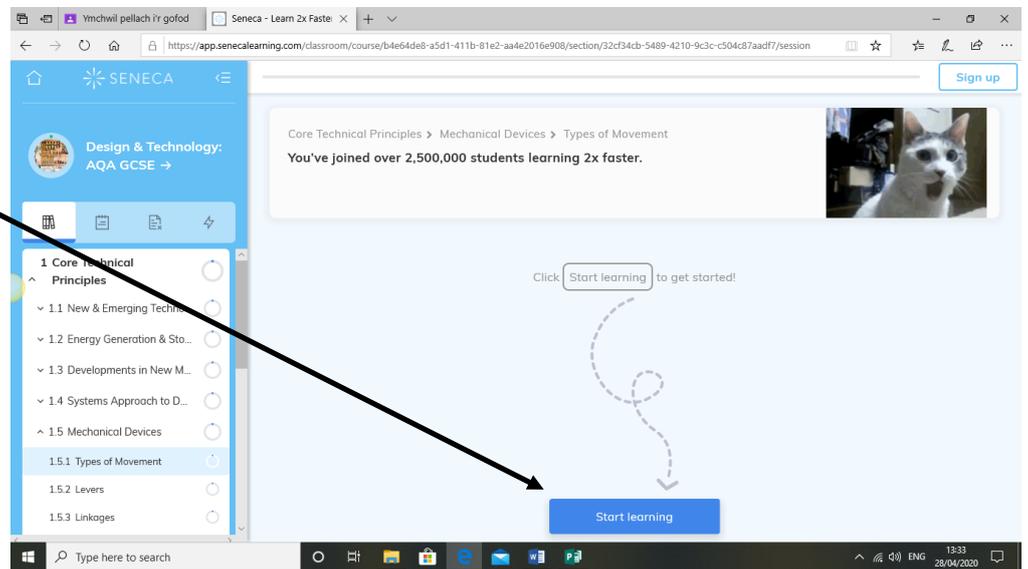

On the next screen  
Type “Ysgol Rhiwabon”

Now click onto subjects and tick "Design and Technology"

Then click onto "GCSE Design and Technology AQA"

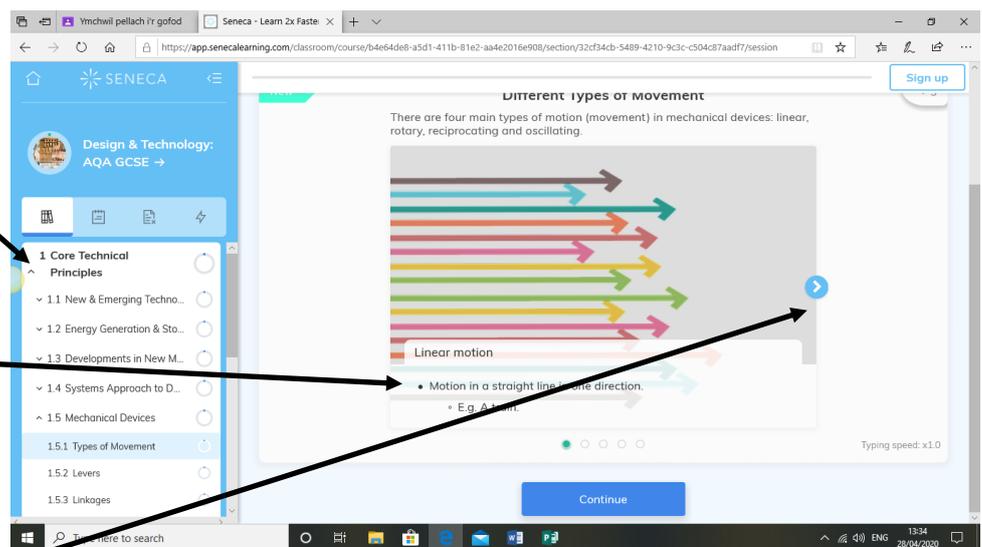

Then click onto "Getting started"

This shows all the topics that you can cover for the course. (One area you do not need to study is textiles).

Click onto a topic one at a time.

Now on this part of the screen read the information carefully

Then click onto the next icon

You will then be asked a series of questions based on the information you have just read. Repeat this process until you have cover all the theory.

You could also write notes on the information you read as it will help you next year. Good luck
